About Us

Established in the year **1975**, we, **Bharat Surgical Co.** are renowned **Manufacturer** of an extensive range of Laparoscopic Trocar Cannula, Laparoscopic Bipolar Forceps, Bi-Polars, and Ophthalmic Instruments. We have the legal status of a proprietorship firm. We have been highly appreciated for our product designs and serve a vast clientèle. Our range of offerings comprises of healthcare products, maternity care products, and disposable surgical products.

The professionals working in various departments show great enthusiasm in doing their work. We consider ourselves very fortunate to have excellent support of these highly qualified people who help the organization to move towards goal realization. Attributing to the high-grade material used, the instruments offered by us reap a high demand in the market. We also ensure a systematic execution of the entire production operations.

Under the mentorship and guidance of **Mr. Rajesh Acharya**, we have been successful in attaining consistency in providing quality instruments. He is a great Proprietor of transparency in every fact of business and takes great interest in ensuring it is being followed thoroughly. It has stringent quality controls at all level of processes. Also, it has excellent set up for the production process and corrective action activities.
